

THEBOXSEAT®

907model

ENVIRONMENTAL SUSTAINABILITY

The BOX Seat's unique geometry and compact rotation system supports reduced raw material usage. The design structure promotes deconstruction and component replaceability. All materials are recyclable promoting conservation and environmental awareness. The BOX Seat is subject to multiple International Patent & Design Registrations.

The BOX Seat 907 model is an economical option compared to a fully padded seat. The BOX Seat 907 model offers the comfort of a padded seat with the durability of a polymer backrest.

This durable 'tip-up' General Admission or Members'-style seat utilises the same unique rail system as all of The BOX SEAT models.

The 907 can be upgraded to a 908 model by simply slotting on the upholstered backrest.

Highly durable recessed seat upholstery, in a selection of commercial grade leatherette fabrics.

From behind the durable polymer backrest is recessed to maximise leg and knee space.

The BOX Seat 907 model incorporates a padded seat insert. The insert pad uniquely maintains the correct ergonomic profile, providing superior seated comfort.

The 907 is the perfect blend between comfort, function and price. The seat insert pad provides the cushion and comfort where it is needed the most, and the polymer backrest is both ergonomically supportive and designed for durability, protecting the soft pad even when the seat is closed.

The BOX Seat 907 model comes with:

- Upholstered padded seat insert.
- Exclusive maintenance-free quality upholstery.
- All components are moulded using recognised quality polymers.
- All materials are UV & FR rated as required.
- Strength and Durability tested.
- TBS rail available in Galvanised or Powdercoated finish.
- Riser mount & Tread mount options.
- Soft action 'tip-up' mechanism.
- Optional Padded Armrest & Cupholder Accessories.
