

The BOX Seat was used for permanent and retractable seating throughout the venue.

LE HAVRE FC

Built with the vision of constructing a venue that would stand as a "new ideal" of Football stadia in France, the new Grand Stade du Havre assumes a prominent position in the City of Le Havre.

The BOX Seat is used throughout the arena for general admission, VIP and even the exterior retractable end stand seating, allowing a stage to be erected off the pitch for concerts and revenue-generating opportunities.
