

"The spacious facilities are cutting-edge, marginally better than Lord's, the home of cricket".

England and Wales Cricket Board

EDGBASTON

Host to Test Match and One Day International Cricket, Edgbaston Stadium is one of the foremost leading cricket grounds in the UK. After the recent redevelopment of the south side of the ground, in which 2000 BOX Seats were put in place, the England and Wales Cricket Board commented that "the spacious facilities are cutting-edge, marginally

better than Lord's, the home of cricket". The redevelopment was opened by the Duke of Edinburgh and saw Edgbaston turned into the kind of ground that hears both players and spectators alike dub it one of the most awe-inspiring atmospheres in international cricket.
