

In compact stadiums, The BOX Seat maximises knee and leg room for spectators' comfort

WOLVES FC

THE BOX SEAT[®]

A combination of The BOX Seat 903 and padded 908 models are fitted to the two tiers of the new "North Bank" stand at the home stadium of Wolverhampton Wanderers FC.

The renovations are part of plans to elevate the Molineux Stadium to the kind of monumental venue befitting both Premiership and International games, as well as some of the biggest live concert events in the country.
